# CLOAK & DAGGER

WINEMAKER **Callie Jemmeson**  
LOCATION **King Valley, VIC**

After years of travelling the world making wine, Callie came home to create a business that would enable her team to make wine and be surrounded by their families. Their projects have no boundaries other than producing high quality wines, affordable wines without pretence.

Freedom of expression and unbridled thinking is celebrated in every wine they produce. We are lucky enough to represent Cloak and Dagger. While Cloak is the brooding Sangiovese, Dagger is a bright and lively Pinot Grigio, two exciting varietals from Victoria's King Valley. There is also a vintage Prosecco and a Piccolo from Central Victoria for that perfect picnic.

# Cloud Cuckoo Land

**WINEMAKER** Giles Cooke MW and Fergal Tynan  
**LOCATION** Riverland, SA

Cloud Cuckoo Land is a classic 'Australianism' describing an imaginary state of absurd over-optimism. This name resonated with the winemaking team at Wild & Wilder, as they felt this was something they'd long been accused of! A classic example is their desire to make high-quality, low intervention wines made from Mediterranean varieties in the Riverland.

Hand-picked before gently de-stemming and crushing, Greco and Zibibbo were held on skins for 24 hours. Cool fermented separately followed by maturation on lees. It has a vibrant, texture with hints of almond blossom, quince and ripe pear. Tangy, almost exotic but pithy and delicious.

WINEMAKER

LOCATION

**Orange, Mudgee, NSW**

Wine on tap works in the same way as draft beer. With the pull of a tap handle, gas pressure forces the kegged liquid (in this case, wine), out of the keg valve, through food-safe plastic tubing to the faucet. From there it dispenses into a ready glass.

Kegged wine avoids wine wasted to oxidation or cork taint. Moreover kegged wines save producers the costs associated with commercial packaging and shipping, and some of these savings are passed on to the seller. In turn, customers will appreciate being served high-quality wine at a value price.

## MAN MEETS MOUNTAIN

**WINEMAKER** Liz Donnelly  
**LOCATION** Mendoza, Argentina

The quest for higher quality has seen Argentina's most ambitious winemakers push into the Andes foothills where the higher altitude and meagre soils produce the finest grapes. MMM is fermented in stainless steel tanks and concrete vats the traditional red wine fermentation with commercial yeasts, open tank pump overs and the fermentation conducted at 28 degrees and 3 months spent in old french oak.

Using 100% Mendoza Malbec and 20% of the grapes come from 80 plus year old vines. This adds to the character of the wine by its perfumed fruit and violet notes on the palate. Man Meets Mountain is packed full of blueberry, blackcurrant and plum with a complex and delicious finish. A truly gallant addition to the portfolio.

# CANTINA PUIATTI

WINEMAKER **Cantina Puiatti**  
LOCATION **Friuli-Venezia Giulia, ITALY**

Cantina Puiatti has played a key role in winemaking and vine growing since 1967. It has managed to evolve by understanding and anticipating continual changes, combining experience, tradition and innovation, while respecting and promoting the territory, the inextricable link between environment, grape variety and climate.

It all began with vineyards in the cool and gravelly Isonzo foothills which make for elegant wines with good structure, as well as some international varieties, for wines with great sapidity and minerality. The grape varieties inhabit the land, which is why they express the different characters of the places they grow in.

## CANTINA DEL VERMENTINO MONTI

WINEMAKER **Cantina Del Vermentino Monti**

LOCATION **Sardinia, ITALY**

The company Cantina Sociale del Vermentino was created by 22 forward-thinking winemakers in July 1956 and named as a tribute to the noblest of the Gallura vines: Vermentino.

As a result of its varied history there are few of the more common Italian varieties planted on Sardinia. Vermentino is the number one white grape variety [68% of Italy's Vermentino is produced here] and indigenous varieties Nuragus and Nasco are common.

The 'Nord Est' Vermentino DOC is a great example of the clean, crisp, fresh almost saline Vermentino that the region has to offer.

# CHAMPAGNE GARDET

WINEMAKER **Stephanie Sucheyre**  
LOCATION **Montagne de Reims, FRANCE**

There is a special style, fragrance, maturity, and finesse that all of the Gardet Champagnes have. And it's only after years of patient work and loving care that these wines earn the right to bear the noble name of 'Champagne Gardet'.

To do so, Charles Gardet based his method on a high-quality grapes supply and a wine making process fully oriented toward excellence. This purpose and the respect of tradition are still at the heart of the current owners' preoccupations: the PRIEUX family. Great care is taken to produce high quality products by leaving the champagnes on the lees in the vaulted cellars for as long as possible and by being one of the few Houses still using oak barrels to age part of the reserve wines.

# CASTELSINA

WINEMAKER **Castelsina**  
LOCATION **Siena, ITALY**

Castelsina represents a wine culture that is innovative and at the same time respectful of the tradition of the Tuscan land.

Thanks to the large surface of the territory and to the various climatic conditions, Castelsina has different kind of grapes. The cultivated varieties are mainly those typical of Tuscany as Sangiovese, Canaiolo, Malvasia, Vermentino and Trebbiano, with a presence of international grapes as Merlot, Cabernet and Chardonnay.

There couldn't be a more perfect wine to add to the portfolio. With its red fruit, spice and great structure, we bet this Chianti will impress you. As Sangiovese fermented in stainless steel and finished with time in old oak, this is a beautiful ambassador of Tuscan terroir.

## Celler Piñol

**WINEMAKER** Juanjo Pinol, Cristina Borrall, Toni Coca  
**LOCATION** Tarragona, SPAIN

For more than four generations, the Piñol family's love of the land and vineyards has enabled them to develop world-class grapes used to produce the high quality wines that they sell around the world today. Combining traditional winemaking methods with state-of-the-art technology ensures their exceptional wine quality.

Because exceptional things, wine in particular, cannot be improvised, they waited 50 years from the first planting in 1945 before selling their first bottle, L'Avi Arrufi 1995.

Some of their wines are a tribute to the efforts of their ancestors and are named in their honour: L'Avi Arrufi (1894-1976), Josefina Piñol (1947).

# deAlto

**WINEMAKER** Giles Cooke MW

**LOCATION** Rioja, SPAIN

Established in the Rioja Oriental sub-zone of Rioja, deAlto is an unconventional producer of brilliant wines that aim to maximise the fruit potential of this great region. Responding to the need for a more sustainable future that harnesses the best vineyards to produce pure Rioja. And this is why they fit into our portfolio so perfectly.

The “tradicional” wines follow the path laid down over centuries, but with the emphasis on balance, fruit and freshness rather than a simple reliance on oak aging. While the foundations of these wines will always be Tempranillo, they benefit from generous use of the beloved Garnacha as well.

Vintage	Variety
2020	DeAlto Arno Joven (Tempranillo, Garnacha, Graciano)
2016	DeAlto Reserva (6pk) (Tempranillo, Garnacha, Graciano)

**WINEMAKER** Emmanuel Cazes

**LOCATION** Languedoc, Comte Tolosan, FRANCE

Pierre et Papa recalls the touching story of a father and son brought together by their abiding love and respect for the vines that they have tended for decades.

Inspired by the fanciful tales of Pierre Renard and his father, Pierre et Papa is a compact range of high quality, well balanced whites, reds and Rosés made from grapes sourced through Southern France.

Dry white grapes grown from selected plots on clay and limestone soils in the area of Comté Tolosan around Toulouse in Gascony. This area benefits hugely from the influence of the Atlantic, giving freshness and acidity and making it perfect for white wine production.

2021	Dry Rosé (Cinault) (6pk)
2020	Dry Red (Grenache/Carignan) (6pk)

# SAN MARTINO

WINEMAKER **San Martino**  
LOCATION **Vazola, ITALY**

Prosecco is the world's most popular aperitif and San Martino is our very special offering and it's taking a reasonable slice of this growing market. One of San Martino's great strength is their vineyard holdings along the banks of the river Piave, around our winery at Visnà di Vazzola, and in the hills between Conegliano and Valdobbiadene, historical home to Prosecco

Profoundly believing in an honest day's work, the unwavering pursuit of quality and a respect for new technology – but not at the expense of the quality of tradition – this family's business has grown from strength to strength since being established.

*viti's*

WINEMAKER **Valle Vitis**  
LOCATION **Friuli, ITALY**

The wines of the North-Eastern Italian region of Friuli Venezia have noticeable Slavic and Germanic influences. The climate is distinguished with very warm days and chilly nights that help maintain a balance in the grape between acidity and sugar levels and allows the grapes a long, slow growing season.

The white grapes of this naturalised French variety are harvested by hand in the vineyards on the eastern Friuli hills. The dry wine has a complex aroma with roses, acacia blossom, apricot and hints of walnut and spices. Smooth and persistent on the palate with evident perception of tropical fruit.
